# Certified Trash Full Capture
# For Curb Inlets

CALIFORNIA STATE WATER BOARD
CERTIFIED
FULL TRASH CAPTURE DEVICE

Designed to convey stormwater runoff from the curb inlet opening to the LittaTrap™ basket, with the basket directly under the manhole access opening.

**CALIFORNIA CERTIFIED**
Certified for Trash Full Capture by California State Water Board.

**EASY MAINTENANCE**
Easy to maintain with the basket directly under the manhole

**TESTED HYDRAULICS**
Over 75,000 LittaTrap's installed worldwide

## ONE INSERT.
## ADJUSTABLE DESIGN.

Designed for retrofit or new construction,it is compact, easy to install, and simple to maintain—making it a practical solution. Because of its modular design, it is adaptable to the curb entry catch basin. Often, the most practical solution for retrofits as it requires no alterations to the drainage network.

8 YEAR WARRANTY ON STATIC PARTS

## EASY MAINTENANCE
## LIFT. TIP. REUSE.

Designed for simple & easy maintenance. Maintenance crews can gain access to the LittaTrap™ basket from the surface. No confined space required.

# KEY FEATURES

» **PROVEN PERFORMANCE**
Independently trialled and tested by municipalities and with over 75,000 units installed worldwide.

» **LARGE CAPACITY**
The LittaTrap™ basket ™ has a high screen area and storage volume, allowing the system to have a high hydraulic conductivity.

» **HIGH FLOW**
Continues to provide trash capture during high-flow rain events. As the system is online, the basket and overflow design provides an unimpeded secondary flow path. This ensures the system does not compromise hydraulic capacity.

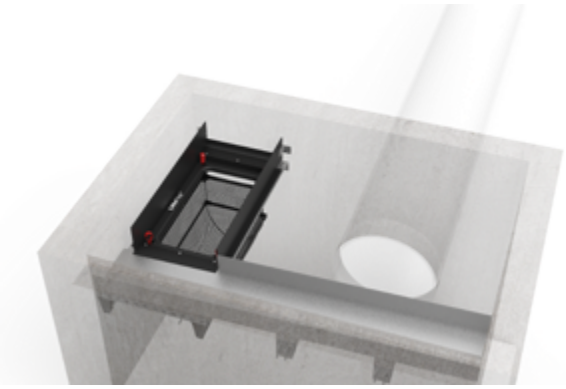

**5 mm+**
Gross Pollutant Capture

**8 Year**
Limited Warranty
